

PD Forum completes the cancellation of CERs to offset emissions from COP18

PD Forum is proud to announce the completion of the cancellation of 25,000 CERs to offset estimated emissions from 10,000 delegates and observers attending COP 18 in Doha.

As of 21st March 2013, 17,200 cancelled CERs are visible in the CDM Registry at http://cdm.unfccc.int/Registry/vc_attest/index.html. The balance 7,800 CERs have been cancelled in the Swiss Registry. The Swiss Registry does not have a public interface and cancellation confirmation may be seen here:
