Re.: Methodology revision procedure

Dear Mr. Prag,

Thank you for your letter to the Executive Board dated March 05, 2010, which was made available to the Board.

On the behalf of the Chair of the Board, I inform you that your comments regarding the new version of AM0034 to the Meth Panel were taken into account in the revised version of the methodology AM0034: Catalytic reduction of N₂O inside the ammonia burner of nitric acid plants --- Version 4. We also appreciate your remarks on possible improvements to the consultation process during consideration of revisions of approved methodologies. Such a consultation process is now included in the "Procedure for the submission and consideration of requests for revision of AMs and tools for large scale CDM project activities" (version 01) which was approved by the Board at its 54th meeting.

Yours sincerely,

A handwritten signature in blue ink, appearing to read 'John Kilani'.

John Kilani
Secretary to the CDM Executive Board
